ENFORCE NEW SNOWMOBILE REGULATIONS

Local O.P.P. are already enforcing newly-announced snow machine regulations that ban snow machines from all travelled portions of provincial highways, including the shoulder. Affected are the following highways in Haliburton County: 35, 60, 121, 503, 507, 519, 530 and 648.

Some 12 changes in the regulations governing the operation of snowmobiles have been announced, effective this current season, by the Ministry of Transportation and Communications.

Included in these amendments to the Motorized Snow Vehicles Act are new regulations covering registration, insurance, speed limits, reporting of collisions, helmets and written permission to drive on private property. Snowmobile operators must now observe the following:

1. On the sale of a new vehicle the dealer must register the vehicle with the Ministry and pay the annual licence fee. (In the case of a machine used exclusively on the private property of the owner of the machine application may be made for a refund)

2. As well as being prohibited from driving on the roadway of a King's Highway you are now also prohibited from driving on the shoulder.

3. Carrying of proof of insurance is now required when using public trails as well as on a highway.

4. If a snowmobile is involved in a collision on or off the highway....including private property..which results in personal injury to any person or in damage to property including that of the owner of the snowmobile exceeding $100., the operator shall report the collision to the police as soon as possible.

5. Speed limits have been set for the operation of motorized snow vehicles when being driven on a highway, upon any public trail, or in any public park or exhibition grounds.

6. Under the new legislation, a "public trail" is defined as any motorized snow vehicle trail established and maintained in whole or in part by public funds.

7. Where the speed limit on a road is 30 miles per hour or less, no snow vehicle may be driven at a greater speed than 15 miles per hour. This speed limit applies in any public park or exhibition grounds.

8. If the highway speed limit is greater than 30 miles per hour, the maximum speed

See ENFORCE p. 8

Beaver skinning

In response to widespread interest right across the province a beaver-skinning demonstration is to be held in Minden this Saturday afternoon.

While not a part of the official Minden Kinsmen Winter Carnival program, the event will be presented on the stage of Minden's Rockcliffe Hotel by proprietor Bill O'Brien, and is expected to draw hundreds of spectators.

On hand to demonstrate the trapper's skinning skill will be local professional trapper Roy Sawyer who will bring along a beaver garnered from his own trapline in the course of his regular trapping this winter.

Rotary beats O.P.P.

More than 200 persons were on hand last Saturday night as The Minden Rotary Club outscored the Ontario Provincial Police 7-5 at the Minden Arena.

The first meeting of these two hockey teams this year, the game was accompanied by and even punctuated with the organ music of local entertainer Fred Ballard, a first-time-ever event for the Minden Arena.

Leading the Team Rotary scorers were Lionel Walker and Bill O'Brien with two goals apiece.

With less than four minutes to play in the first period O.P.P. goalie Bob Wood suffered a four-stitch gash in the forehead, into the breach stepped Mike Hickey who, after a shaky start turned back the storming Rotary team again and again. Mind you, they scored once in a while, too.

However, by the third period O.P.P. marksmen had Rotary goalie Dick Schell dancing a fast two-step as they closed the gap.

Knowledgable rinkside comments at game's end were that given another 10 minutes the game would have ended in a tie, as O.P.P.'s superior conditioning made itself felt.

Only three penalties were meted out during the clean-ly-fought match, two to the O.P.P. and one to Team Rotary. Final score Team Rotary 7 - O.P.P. 5. A reception was held following the game.

Predict record-breaking Carnival

Area accomodation is at a premium this weekend with thousands expected to be on hand for the area's winter season highlight, the Minden Kinsmen Winter Carnival. With lots of snow and virtually ideal weather conditions carnival organizers from the Minden Kinsmen club predict a record-breaking weekend if the weather holds.

Latecomer to the carnival the end of this week is a crowd-pleasing horse drawing competition scheduled for Sunday afternoon.

The competition is open to anyone and already team entries have been promised by Malcolm MacGillivray of Cardiff, Victor Cox, Minden, Murray Cowan, Haliburton, Jack Batty, Coboconk and Leroy Nesbitt, Minden.

Starting on qualifying pull will probably be 3,500 to 4,000 pounds according to event chairman Leroy Nesbitt who indicated that pulls would be increased by 1,000 to 2,000 pounds at the judge's discretion.

Horses entered in these competitions are considered to be comparable to trained athletes and are conditioned and trained especially to perform these feats. To the teamster his team is the love of his life and is treated accordingly.

Other major highlights of the carnival, which gets under way Friday afternoon, will be the selection of the Snow Queen '75 and a hockey game between the Minden Monarchs and Elmvale, both Friday evening.

Saturday's program includes a 10-mile snowmobile race, the Canadian Beer Drinking Championship, an afternoon Beer Garden and the special Lumberjack Meal.

Sunday morning starts off with a traditional Pancake Breakfast and will feature in addition to the horse drawing competition, snowmobile drag races and a tug of war contest.

Snowerama

There's no finer cause to get out and work for than to help crippled children and that's exactly what hundreds of snowmobilers will be doing this Sunday as they circle through some 100 miles of Haliburton County trails for the Whipper Billy Watson Snowerama for Timmy.

Although a province-wide

Natural Resources

1974 fire season

BY: R.H. Smith
Regional Fire Prevention Training Officer
Ministry of Natural Resources

Officially the 1974 Fire Season ended at midnight October 31st. In the Algonquin Region, which includes the Districts of Algonquin Park, Bancroft, Bracebridge, Minden, Parry Sound and Pembroke, there were 307 fires which burned an area of 1012.3 acres. This was a 60% increase in the number of fires over last year when 192 fires burned 266.6 acres. Some statistics are as follows: 117 fires or 38% of our fires occurred in April. These fires accounted for 785.5 acres or approximately 78% of our total number of acres burned.
In May, 35 fires burned 24 acres.
June produced 18 fires with a burned over area of 27.9 acres.
While there were 73 fires in July, only 33 acres were burned.
This was an average of 1/3 acres per fire and most of these occurred while our regular fire staff were fighting fires in the Northwestern part of the Province. This seems to point out the depth of our organization and the co-operation received from other services, wardens, the public and other agencies.
39 fires burned 47.9 acres in August. 41% of these fires were lightning caused.
To round out the season, 14 fires occurred in September, burning 9.9 acres and there were 11 fires in October, burning 43.9 acres. 91% of fires in the Algonquin Region were caused by human carelessness. The biggest offenders were rural residents (25%) who were either careless with smoking materials or when they were burning brush or debris.
92 of our 278 man caused fires were caused by people using the forested areas for recreation purposes. 29 or 31% of these fires occurred in Algonquin Park mainly during July and August and early September and with the exception of two resulted from carelessly abandoned campfires.
Children were responsible for causing 28 fires while only 1 fire was caused by a woods industry employee.
With the continued co-operation of everyone, man caused fires can be kept to a minimum.

Tough Trapper

BY JOHN MACFIE
FISH & WILDLIFE SUPERVISOR
MINISTRY OF NATURAL RESOURCES

Mr. Clarence Shaw, a wiry little eighty-nine year old has been long regarded around his Rosseau, Ontario home as a remarkably hardy fellow for his age - or any age for that matter! A couple of weeks ago he extricated himself unharmed from circumstances that might have proved disastrous for almost anyone. Mr. Shaw is a trapper and in the last week of November he set off in a small boat down ice-rimmed Lake Rosseau to look for a nuisance beaver colony he had promised to remove for a Skeleton Bay cottage owner. On re-entering the main body of the lake he met storm-whipped waves that quickly filled his boat to the gunwhales. Drenched, cold and afraid he might perish before the wind drove him ashore, he elected to swim the last 50 yards (wearing hip waders). The water was near freezing and rolling heavily -- but he made it! Mr. Shaw did something that conclusively sets him apart from the rest of us, who at that point would have thought only of self-preservation. He, knew his boat would be battered to pieces on the rocky shore, if left to the mercy of the wind. He sat neck-deep in water which felt warmer than the snowstorm that was going on above and waited for the boat to drift inland.
After guiding the water-logged craft to the safety of a beach he began to climb the steep shore to the cottage access road which he hoped was there. It was, (how far away Mr. Shaw isn't sure) - maybe half a mile. There is no doubt he walked much further because it is two measured miles on the map to Highway 532. The first passing motorist stopped remarking the sodden fellow pouring water out of his boots was in trouble and drove him to his home in Rosseau.

Dog Tags

TAKE NOTICE

Persons owning, boarding or harbouring a dog are required to obtain dog tags for each such animal.
All dogs, regardless of breed, sex or age are required by law to be tagged.
The fee for each license tag is $5.00.
License tages are available at the Minden Municipal Offices.
Further take notice that charges may be laid at any time after March 1st, 1975 for any dog not licensed and tagged according to law.
Charges may also be laid if a dog is found running at large whether tagged or not.

RICHARD C. SCHELL
BY-LAW OFFICER

If you had a savings plan that gave you high interest and let you save tax dollars, you'd call it smart. That's what we call it.

Introducing SMART

We figure with inflation and taxes taking more and more of your earnings, it's become harder just to get by now, let alone save.

That's where the Commerce SMART registered savings plan comes in. The SMART plan is really a double-barrelled savings plan. It not only gives you good compound interest rates on the money you save, but it also saves you some of the money you'd normally pay on income tax.

For example, if your taxable income is $10,000. and you put $1,000. into SMART you'd only pay taxes on $9,000.

You see, since the SMART plan is registered with the Government, the Income Tax Act lets you deduct a certain amount from your income and lets you accumulate this money tax-free until you really need it. Your accumulated savings will be treated as taxable income in the year they are paid out to you.

At the Commerce we think a plan that allows you to SAVE MONEY AND REDUCE TAXES is smart. Which is why we named our plan the way we did.

SMART
Save Money And Reduce Taxes

How much money does it require to start?

The minimum contribution has been set at $50. And you can contribute as often as you like. The amount you wish to save (within allowable limits) is entirely up to you.

You may, if you choose, make a single lump sum deposit. Alternatively, the Commerce can make it easy for you to save systematically — regular transfers from your chequing or savings accounts can easily be arranged.

What's the best age to start contributing?

You can begin at any age so long as it's before your 71st birthday. In fact, the sooner you start the better.

Because, how much you end up with in your Registered Savings Plan depends on how long your money has been accumulating as well as the amount you've contributed and the interest rate you earn.

For instance, if you started saving $1,000 a year at age 25 and assumed an average compound interest rate of 7%, your retirement savings would amount to $220,723 at age 65. On the other hand, if you waited until age 45 and contributed $2,000 a year at the same 7% compound rate, your savings would only total $89,014 even though you had contributed exactly the same amount - $40,000.

So you see, the whole idea is to let your money keep working for you as long as possible.

Can you make withdrawals from your SMART plan?

While withdrawals are not permitted you may de-register your Plan. At that time, your accumulated savings will be treated as taxable income in the year received. However, you may use your savings to purchase an annuity thereby spreading your taxes over a number of years.

Is SMART the plan for you?

The Commerce SMART registered savings plan makes a lot of sense for just about everyone. It doesn't matter whether you're a successful businessman, a busy working wife, a young family man, an active career girl, or someone who's just interested in a good savings plan.

How can you start SMART?

Come to the SMART Information Centre located at the Commerce branch nearest you.

We'll be glad to help you set up your SMART plan or give you any further information you may need.

Mother

By Jackie Walters

The bombshell was delivered just before the child left for school but just after her father had left for work. Its the usual arrangement. They wait for the main man to leave the house before presenting an unreasonable request to their mother. This child then, made mention that she intended to drop latin next year and take up shop. She reasoned that since she was already taking two languages the latin was unnecessary and shop would be more fun. Anyway, said she, she would never vacation in Latin since there was no country by that name and it was an archaic language fit only for pharmacists. And ...er, since she had no interest in pharmacy, latin would be of no consequence to her, at all. She said that she was well aware that priests took latin, but since she had no intention of becoming a prist and since ladies rarely did, latin would be of no use to her.

"Besides, shop is more fun."

"You can't take it", I said.

"But I want to take shop...it's so fun".

"School is not supposed to be fun". This is a famous family phrase.

"Well, its fun for boys but not for girls. All the fun things are boy things. The girl things are a drag. All we get to make if a white sauce and Waldorf salad in Home Ec. And the boys get shop. And they get to make capons in their science class and go on field trips to funeral homes and make rockets with high explosives and learn about gravity while tobogganing during school hours and rebuild carburetors and study the great plays in football and study health with pictures and the only thing we girls get to do... is make a white sauce and Waldorf salad in Home Ec. Bad news".

"Enough". But the kid was right. Her argument took me back to when I was a girl in school and suffered the same kind of injustices. The fun things were the boy things in those days too. Although I was never driven to use a gouge and lathe as this eldest daughter wanted to do, still I had lived some of her frustrations, then. After all, aren't she and I somewhat alike? Don't we share some kind of genetic generality? Are we not both left-handed?

"I'll talk to your father about it".

And then she left for school and probably another ungodly white sauce, not to mention the offending Waldorf salad.

I decided to try it on her father that evening. Things looked good. The trout had baked. The home fries were seasoned with just the right amount of oregano. The desert had capped a perfect dinner. Time to attack. It was going to be rough. The reality of the situation was clear to me. Their father, who is some kind of contemporary man on weekends with his denim shirt and blue jeans and three inch heels, retreats into an earlier century when the traditional roles of men and women comes up in conversation. On that subject, he is immovable. And since shop is for boys and white sauce is for girls, it was obvious that Leigh would be taking latin again next year, come hell or high water.

I steeled myself for the proposal. Leigh had hung around the dinner table far longer than she usually does. She looked me in the eye a thousand times during dinner as though to challenge my ability to negotiate with the great man.

It was time now, to make the proposal.

"Leigh wants to drop latin and take shop next year".

"Sure".

See You There

This year's Winter Carnival is full of promise like never before. It's shaping up as one of our best, if not the best yet and it's all due to those hard-driving Kinsmen and the enthusiasm they've generated everywhere they've gone.

Now it's up to the weather and the rest of us. We can't do too much about the weather, but we can make sure that we are here in Minden and taking part in all the activities. It's a busy, fun time and a chance to once again show all our visitors some real Minden hospitality.

See you there.

Pledge

Got your pledge in yet for this Sunday's Snowerama? If not, then it's about time you did. Time is running short and there's no finer cause.

All monies raised will be used to help crippled children and there's no finer cause than that.

In preparation for the big event, workers have been out grooming trails, arranging for meals, fuel, you name it. Scores of men will be devoting their Sunday this week to Snowerama in a variety of capacities. Not least amongst them are the snowmobilers themselves who've undertaken to ride their machines a gruelling 100 miles in order to raise the funds.

So, what about you? Call Aubrey Gostlin or someone and get that pledge in.

Olympics

On again, off again. That seems to be the story of the 1976 Olympic Games slated for Montreal.

As usual, labor troubles, inflation, in fact all those sommon, everyday occurrences we've come to know so well, have combined to place the whole affair in jeopardy over and over again.

If nothing else, this whole affair serves to emphasize the folly and futility of leaving a project of this magnitude in the hands of a lone city.

Do we really, seriously expect the people of Montreal to foot the bill for the almost certain and heady dollar losses anticipated?

Olympic sponsorship should only be undertaken at the national level with organized federal and provincial support. Then, let those cities that wish to do so bid for the games site with the bidding controlled by Ottawa.

Staging the Olympic Games should be a national project.

Trapline management in Ontario

by P.W. Swanson

Ministry of Natural Resources

Hunting or trapping for fur is one of the oldest occupation's in North America. It dates back to the early days when the settlers traded goods brought over from Europe for furs harvested by the Indians.

With the growth of farming and industry the fur trade has declined in importance. Although the role of the fur industry has decreased in the economy somewhat it is still important to-day.

In Ontario, trapping is big business. The fur catch provides 9000 trappers with a direct income of several millions of dollars each year depending on market conditions. To many of the native people in the far north it is their main source of income; to others part time work, and then to some it is a hobby or sport and provides pleasant outdoor activity. Trapping and fur handling is an art that cannot be learned and mastered in a few days or weeks. Months and years of hard work and experience are required to become an expert trapper. In the early years of the fur trade anyone with an adventurous spirit could go trapping without the authority of a license since none was required. In those early years the steel trap had yet to be invented and all trappers used what were known as dead-falls for harvesting furbearing animals.

Dead-falls were built using a number or series of small pointed notched sticks balanced on one another, the bait being attached to the key stick which acted as the trigger. A heavy log balanced on top of these dropped, killing the animal when it pulled on the baited key stick.

With the invention of the steel trap which is still in use today, ruthless and greedy white trappers had better chances for catching furbearers since less time was needed to set steel traps compared with the building of a dead-fall.

These trappers travelled far & wide taking large quantities of fur, showing little or no concern for future stocks, they would simply move on to other areas when one area was trapped out.

Fear of total destruction of this great fur resource through these ruthless trapping methods led to the passing of laws and regulations by the government of those days for control of trappers to conserve and manage this resource. Seasons were set and licences to trap were made a requirement in the early 1900's.

To-day Ontario Trappers are divided into three groups or categories.

I REGISTERED TRAPPERS

These trappers were given the sole trapping rights to an area of Crown Land in a Forest District.

The trapline so created is marked on a map, given a number and both the number and boundaries are registered with the Ontario Registrar's Office. The holders of Registered Trapline Licenses have the sole trapping rights to these areas as long as they wish to trap and abide by the regulations and the conditions of their license.

They can with the Ministry of Natural Resources' permission sell their traplines to another trapper who has been approved by the Ministry. This entitles the trapper to sell his cabins, trapping equipment, trail improvements and the trapping rights registered to him. Licence Fee $5.00 per season.

II RESIDENT TRAPPERS

Most of the resident trappers are found in Southern Ontario where little or no Crown Lands are available. Under the authority of the Resident Trapping License trappers are allowed to trap on privately owned lands after written permission has first been obtained from the landowner. In some cases where Crown Lands are available some resident trappers may be licensed to trap on a combination of Crown and Private lands.

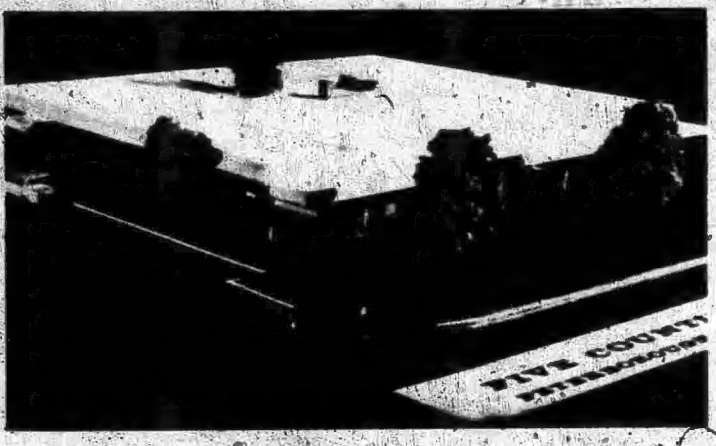
Licence Fee $5.00 per season.

III FARMER TRAPPERS

The farmer trapper includes the farmer or his sons who may trap on their own lands under the authority of a free license.

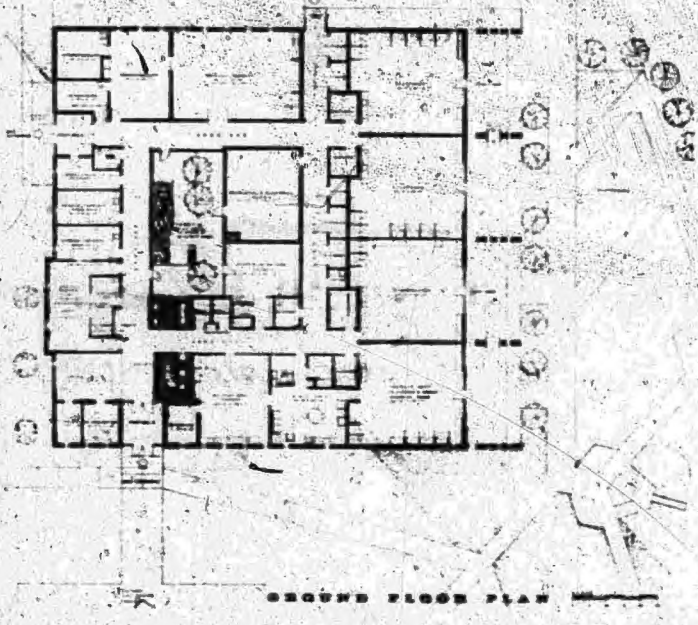
This highly organized trapline management system in Ontario has been of great value to the Ministry providing a great deal of information concerning furbearing animals, seasons fur quotas, and supplying solutions to many trapper's problems of the past. Most trappers have expressed complete satisfaction with Ontario's trapline management system and policies. Under this trapline management system most furbearing animals have increased considerably during the past two decades since intensive trapline management started.

Five Counties Children's Centre



To Serve The Counties Of:
PETERBOROUGH, HALIBURTON, VICTORIA, DURHAM, NORTHUMBERLAND

Sponsored By Rotary Clubs Of: Campbellford, Cobourg, Fenelon Falls, Haliburton, Havelock, Lindsay, Minden, Peterborough, Port Hope



GROUND FLOOR PLAN

Last year the Minden and Haliburton Rotary Clubs joined with 7 other Rotary Clubs in the counties of Peterborough, Victoria, Durham and Northumberland to sponsor the more than $920,000 Five Counties Children's Centre now nearing completion in Peterborough. Both Minden Rotary Club and the Haliburton Rotary Club pledged $10,000 each towards this project.

The above plan illustrates the facilities to be provided in a single storey building of 13,000 square feet comprised of Physio, Speech and Occupational Therapy Rooms, Classrooms, Offices and an open court for the children to enjoy the fresh air between treatment and classes.

Future expansion will provide increased treatment and education facilities as well as a future Children's Residence and an Adult Rehabilitation Centre on the same site. This will ultimately provide a total rehabilitation complex central to all areas of the Five Counties participating in this project.

For many years the nine Rotary clubs involved in this project have made crippled children an ever increasing portion of their community action projects. In early 1972 it was determined that an effort should be made by these nine clubs to establish a Children's Centre in Peterborough servicing the Five County District. Excellent co-operation and participation was obtained from the Medical groups, the City of Peterborough and other Municipalities and Boards of Education.

On April 17, 1974, approval for funding was received from the Ontario Minister of Health and the arrangements for tender call for construction were commenced. Funds are required immediately in order for this major while project to be completed.

Administration will be under the direction of the Board of Directors of the Five Counties Children's Centre. Classroom instruction will be under the direction of the Peterborough County Board of Education and the Ontario Ministry of Education. A volunteer Medical Advisory Committee of highly skilled specialists will look after the medical needs of the children.

Operating funds for the centre are available from such provincial sources as the Ontario Ministries of Health and Education as well as the Ontario Society for Crippled Children.

The initial phase of construction will consist of the Children's Centre proper plus the additional facility of a recreational swimming pool at an estimated total cost of $920,000.

The Children's Centre will cost $720,000 and the swimming pool will cost $200,000. Grants are available for the Centre in the amounts of $446,000 from the Ontario Ministry of Health and $112,000 from the Ontario Society for Crippled Children.

The remaining amount of $162,000 for the centre and $200,000 for the swimming pool (which is not eligible for any grant) is to be raised within the Five County area.

This target amount of $362,000 will be raised by the nine Rotary Clubs in the Five Counties by means of a general canvass of Rotarians, prominent citizens, industry and the local municipalities.

Hold safety seminar for school bus drivers

The majority of school bus drivers for Haliburton County were given special instructions in safety procedures at the Haliburton Highlands Secondary School last Thursday, January 23. On hand was a Speakers' Panel consisting of Leonard Salvatori, Chairman of the Transportation Committee for the Haliburton County Board of Education, Gordon Sharpless, Transportation Supervisor for the Haliburton County Board of Education, Gerald Stock, owner of LaRue Bus Lines Limited, Blake Williams, Safety Officer for Travelways Limited, Const. Wm Magee, O.P.P. Safety Officer for Haliburton County and Stuart Baker, Principal of the Archie Stouffer Public School, Minden.

Statistics presented at the session indicated that school buses are the safest vehicle on our highways today. Last year in Ontario there were three fatalities connected with school buses and these were not passengers at the time of their death; for example- a child ran into the path of a bus. The government is now setting standards for bus construction resulting in constantly improved safety features. Since 1972 all new buses must have two complete braking systems.

Most of the speakers on the Panel emphasized the importance of cooperation by parents of children riding buses with the bus driver and the school authorities in order to maintain discipline. The biggest problem in school busing is children who will not sit in their seats and behave themselves, constantly causing distractions for the driver. The Director of Education stated emphatically to the drivers present that if students will not behave on school buses they are to be taken to their school principal. The privilege of riding on a school bus may be taken from them until they are willing to behave. If this happens, the student will still be required to attend school and it would become the responsibility of the parents to provide the transportation.

Mr. Gerald Stock presented to the Haliburton County Board of Education a copy of the Travelways' film "School Bus Safety Chains". The Haliburton County Board of Education plans to show this film in the schools as well as at a series of evening meetings for parents throughout the County. The first of these meetings will be held on Monday, February 24, 1975 in the Archie Stouffer Elementary School, Minden. It will commence at 8:00 p.m. and will be 1 1/2 hours in length.

The clerk was given instructions to follow concerning these matters. Members present: Robert Fotheringham, Reeve Larry Hunter, Elgin MacDuff and Brian Madill, Councillors.

ANNOUNCEMENT

PEEL & MOSIER SPORTS LTD., ONTARIO DISTRIBUTOR OF REMINGTON CHAIN SAWS IS PLEASED TO ANNOUNCE THE APPOINTMENT OF ALLEN S. COOPER AS THE EXCLUSIVE REMINGTON DEALER FOR THE MINDEN AREA.

ENFORCE from p. 1

permitted for snow vehicle operation is 30 miles per hour. This is also the maximum speed permitted on any public trail.

9. Municipal by-laws may vary speed limits provided signs are erected. Municipalities have the right to pass by-laws regulating, governing or prohibiting the operation of snowmobiles anywhere within their boundaries, on or off the highway.

10. The operator of a snowmobile driving on private property is required to stop and give his correct name and address at the request of the owner or occupier of the property.

11. The towing of a cutter, toboggan or sled is not permitted on a roadway or shoulder except to cross at an angle of approximately 90 degrees. Towing is not permitted anywhere except by means of a rigid tow bar.

12. Helmets must now be worn by all snowmobile operators, passengers and persons being towed by a snowmobile, when on the roadway, shoulder or a public trail. Helmets must comply with standards established for motorcycle helmets.

13. All snowmobile operators must obtain written permission from the owner or occupier of land in order to drive on the property. Where an owner gives permission to a club, the permission extends to all members of the club. Trespassing on private land while operating a snowmobile is an offence carrying a fine up to $500.

The new legislation contains authority for additional control and regulation which will not come into effect until next season. These relate to identification of the vehicle as well as driver licensing and age limits. A further announcement will be made on these subjects at a later date.

Liberals to pick candidate

Liberals from across the provincial riding of Victoria-Haliburton will gather in Lindsay Academy Theatre next March 7 to pick their candidate for the much-touted, but as yet unannounced provincial election.

In announcing the upcoming Liberal Nominating Convention, David Walling, President of the Victoria-Haliburton Liberal Association, said four Lindsay men had indicated their intentions of contesting the nomination. They are: Chartered Accountant Douglas Fisher, lawyer and former association president Donald Warner, former Lindsay mayor and provincial candidate John Eakins and present Lindsay mayor, lawyer David Logan.

CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON & MINDEN

PARKING NOTICE

Parking By-law 73-47 regulating parking in the Village of Minden is now in effect.

The following are points from this By-law which will be enforced.

1. Two hour parking on Main Street and other Streets posted.
2. No parking within 20 feet of any intersection.
3. No parking within 10 feet of a fire hydrant.
4. No double parking.

The penalty for any infraction listed above is $10.00 minimum plus court costs.

"The Municipal Parking lot adjacent to the Municipal Offices have been kept clean for FREE PUBLIC parking."

RICHARD C. SCHELL
BY-LAW OFFICER

Township Of Stanhope

NOTICE

By-Law 73-13

1975 DOG TAGS are now on sale at the Municipal Office.

The owner, harbourer or possessor of any dog within the Municipality shall by April 30, 1975 procure a license therefore.

Everyone who is in possession of a dog and who neglects to obtain a tag by the above date, will be liable to a fine of $25.00.

Further, everyone who at any time allows a dog to run at large within the Township of Stanhope will be liable to a fine of $50.00.

W. JAMES MOORE
BY-LAW ENFORCEMENT OFFICER
TOWNSHIP OF STANHOPE

Your money and credit

BUYING A HOME

Buying a house can be a pretty exciting experience. It is probably the most expensive investment you will ever make and one you hope will give you a great deal of pleasure.

Once you have saved up some money — saving is hard work and it may have taken you quite a while to do it — and have decided that you have enough for a down payment on a house, you will very likely start looking around the district where you want to live.

The best move, if you haven't done it already, is to go to a real estate broker. Make sure he is a good one.

As soon as you have found the house you like and can afford, but before making an offer, have a chat with your lawyer (or notary in Quebec). He is the best qualified to look over the transaction with you, and to see that your interests are protected in the terms of the offer.

At about the same time you go to see your lawyer, it would be a good idea to see your bank manager. They will both be able to advise you on the various ways to pay for your house. There may be a mortgage on the house already, in which case it could be to your advantage to take it over. Or you may not have the option, in which case you will have to arrange for a new mortgage to cover the entire balance beyond the down payment.

A great many different arrangements can be made, but whatever the details, a good principle is to make as large a down payment as possible from your savings, and borrow the rest from the bank or another mortgage lender. The property would then be security on the mortgage loan until it is paid off. The trick is to borrow as little as possible and pay it off as quickly as possible. If you borrow $20,000 and pay it off during 25 years, the total interest charges are going to be a lot more than if you borrow less, or you pay it off sooner or both. It naturally depends upon your down payment.

This is one of a series of columns on money management, condensed from the booklet Your Money and Credit Today and Tomorrow, published by the Canadian Bankers' Association. Copies of the booklet, in English or French, are available free from the Association at P.O. Box 282, Toronto Dominion Centre, Toronto, Ontario, M5K 1A3.

Board of Education inaugural meeting

The Haliburton County Board of Education's inaugural meeting was held on the night of January 14, 1975. Mr. Ralph Young of Snowdon Township was elected Chairman for the year 1975. Mrs. Joyce McKey of Sherborne et al was elected Vice-Chairman.

Members appointed to committees were: Salary Committee-Mr. Lloyd Johnson, Chairman, Mr. Leonard Lonsberry, Mr. Norman Gilmore, Mr. Rick Poole.

Transportation Committee - Mr. Leonard Salvatori, Chairman, Mrs. Joyce McKey, Miss Vaneita Pickens, Mrs. Goldie Watson.

Retarded Children's School Advisory Committee - Mr. Ross Anderson, Chairman, Mrs. Evelyn Gibson, Mr. Wilfred Mason and representing the Haliburton County Association for the Mentally Retarded - Mr. Leonard Creelman, Mrs. Julie Hunter, Mr. Wilfred Jarvis.

Hiring Committee - Mr. Ralph Young, Chairman, Mrs. Dorothy Way, Mr. Dennis Waymouth.

Representative to Ontario Public School Trustees' Association - Mr. Leonard Salvatori.

The Board welcomed Mr. Norman Gilmore of Lutterworth Township who is returning to the Board after a two-year absence and Miss Vaneita Pickens of Glamorgan who is serving her first term with the Board.

The Reeve's Corner

By Reg Booth

Did you know that the Highland Crest Senior Citizen's Home is your home? The home was built with the assistance of the Provincial Government, and the cost of its operation is subsidized by the Government. Some of your tax dollars are used to pay the bills, so you should be interested in its operation.

The Committee of Management responsible for the month to month operation of the Home, is named by County Council, and consists of members of County Council elected by the Municipalities within the County. This Committee meets not less than once a month in the Board Room of the Home. The Home has a capacity of 60 beds, and at present there is a waiting list of nearly 20 senior citizens waiting for admission. These are selected in the order of need, as recommended by the Home Physician.

A very competent staff maintains watch over all residents, and much personal attention is given each day to residents needing care and encouragement. The building itself reflects the dedicated care of the housekeeping staff, which can only be appreciated by a visit to the Home.

The total cost of operation in 1975 may well reach a total of $450,000.00 which shows the size of the operation. Mrs. E. Bursey is the capable Administrator, and keeps a daily check on every part of the administration.

These are your tax dollars, so if you haven't inspected the Home, why not make a visit, and shake hands with those who give, and with those who receive. TRY IT.

SNOWERAMA from p. 1

project with a goal of $250,000, locally it is being sponsored by the Minden and Haliburton Rotary Clubs and the Haliburton County Snowmobile Association.

Working together, these groups have organized what has to be one of this area's greatest safaris ever, even to carefully grooming the trails, providing check-point officials crossing guards and safety patrols.

Snowmobilers have their choice of starting and finishing at either Minden or Haliburton. In each instance the snowmobiler will be carrying pledges valued at hundreds, even thousands of dollars. All will go to aid crippled children.

Dental Health Week

Grade 5 students in Victoria and Haliburton Counties are presently working hard on their entries for this Poster Contest, a promotion held each year in the two counties to help publicize Dental Health Week-February 2-8.

Students and parents are invited to visit the Public Library in Lindsay during Dental Health Week to see all the school winning posters on display.

Richard Parisotto,
Secretary-Treasurer,
Minden Recreation Committee
P.O. Box 98 Minden, Ontario.

TAX TIPS

Q.

The Family Allowance cheques received for our children are made out to my wife. Does this mean she must report the payments as income?

A.

Not necessarily. The law requires that the individual who claims a personal exemption on behalf of a child for whom the payments are received must report the payments as income. If neither parent claims an exemption, the person to whom the cheques are made out must report the income. For further information, refer to Item 7 of the Income Tax Guide provided with your income tax return.

Q.

When filing my tax return, should interest be declared in the year it is earned or the year it is received?

A.

You may report interest as income either when you become entitled to receive it, or when you actually receive it, but you must follow the same method regularly from year to year.

Q.

My employer pays me an allowance to cover my board and room while I am working at distant work sites away from my ordinary place of residence where I support my wife and family. Previously, I was told that this had to be included in income for income tax purposes because I was not a construction worker. I understand that this no longer applies. Is this correct?

A.

Yes. This exempting provision now applies to all workers employed at a distant work site providing they meet the other necessary conditions.

ABOUT THE TOWN

with Jeanne Sears

Our Annual Winter Carnival begins this Friday with the choosing of two Carnival Queens followed by a dance at Archie Stouffer Gym and at the Arena sports. This year cutter and sleigh rides and other usual events continue over the weekend.

The Whipper Billy Watson Snowerama will be a big event this year with people pledging money through many local businessmen and these funds go to help the Crippled Children, another Minden Rotary project. So get with it and add your support to this worthy cause. The Alberta Distillers Trophy will go to the entrant finishing the course and raising the most money.

Belated good wishes to Ruby Houston and Robert Schroter of the Hyland Crest Senior Citizens Home who celebrated birthdays this month.

There was a goodly crowd watching the game between the O.P.P. and Rotary Club last Saturday night. This was a chance for some to board or tip a "man in blue" and one jersey was a reminder from them, with number 08. There were many falls, spins and spectacular rushes with one shot requiring a policeman to have stitches but he was back before the game was over. Some of the crowd stayed to enjoy the dancing and refreshments after the game.

Sincere sympathy to the family and friends of the late Walter Dennison who died over the weekend.

Mary Sault was the recipient of a shower of gifts at the United Church Hall last Wednesday evening, prior to her wedding.

The village sends good wishes to Erastus Robertson at Civic Hospital Peterborough and to Beulah Hewitt at St. Michael's Hospital, Toronto and to Vera Fuller and Charles Brandon at their homes.

Do you think this is true? No man ever gets to the top of the ladder without friends and fellow workers steadying it for him.

We watched the sunrise in the morn,
Red on the pure white snow,
Not much to do, nothing to say,
And no place for us to;
And no place for us to go;
So we swept the floor and made the bed,
We washed the dishes for three,
Then we went to the window to watch the birds,
A Budgie, aBeggle and Me!
We watched the sunset colour the sky
And the blue-jays and chick-a-dees homeward fly,
We turned on the lights to chase out the gloom;
Then we all sat down in a warm, cosy room
We spoke not a word as there was no need,
The wind howled outside like a pied-piper's reed,
We cared not a whit as we watched T.V.
A Budgie, a Beagle and Me!

Ann Cummins.

Hint of the week--When whipping cream add the white of an egg and it will stay better.

We notice the building beside the Progress is coming along nicely and will add to the appearance of this street. We understand there are three offices and above this two apartments. Perhaps there will be more expansion down this way after the sewers are installed.

We note that the road gang are again doing an excellent job on the roads and keep our Main Street ready for parking, though this is limited as to time or double parking. Also be careful, your vehicle must be taken home at night, or it might be towed away.

At the weekly Mini Card Party last Thursday afternoon at the Parish Hall winners were for bridge Isobel Harrison, for cribbage Cora Hewitt and Anne Dawson and for euchre high and lone hands Mae MacArthur and Charlotte O'Neil.

A new arrival is Donald Roger, a new grandson for Mrs. Don Hogg and Mr. and Mrs. J. Dollo, and first baby for Mr. and Mrs. Roger Hogg.

Mr. & Mrs. Fred Wright are home again after visiting the Ted Johnsons in Toronto.

Several snowstorms since last week, ice is getting thicker on the lakes, but snowmobilers should check that the ice is thick enough. Anyway drive your vehicle carefully.

Cheerio until next week.

Along The Trails

with
The Highland Snowmobiler
and Roy Bates

Snowerama next Sunday

With all that has been written in past weeks about this event to raise funds for Crippled Kids it is hardly necessary to say more, but a brief outline of the route to be used and some advice for the safety and comfort of the participants might be in order.

There will be two starting points on one circular course. Take your choice of Haliburton or Minden. From Haliburton the trail runs from the High School area down the Kashagawigamog chain of lakes to South Lake and on to Minden, by-passing the village by way of Pike's Peak and a crossing of the river at the old highway bridge near Walker's Lumber. Just north of Minden the Haliburton riders will merge with riders out of the fairgrounds at Minden and will continue along the tri-trail route up the lakes from Mountain to Hall's.

At Hall's Lake, the Haliburton riders will find rest rooms, a food stop, and a refuelling station. Food and fuel is provided free of charge. Loralea Lodge is catering the food.

Minden riders will continue through. The trail goes north to Big Hawk and Red Pine then southeasterly to Kennisis, Redstone, Millers Lakes, and the hydro line to Fort Irwin where Bayview Eaches Restaurant will provide the food for Minden people. A refuelling station and rest rooms will also be located here. Haliburton riders will continue through.

Still following the tri-trail, the course crosses the end of Haliburton Lake to South Bay, south to Drag Lake and back to Head Lake and the finish line. Minden riders will carry on to finish where they started at Minden.

Ten or more checkpoints will be established at road crossings or cottage sites. Don't miss one, or your effort will be aborted. Trail patrols will shuttle between checkpoints. If you should happen to break down, simply raise the hood of your machine and wait for help.

Instructions for registration. Take your pledge sheet (with names and addresses legibly printed) to the registration booth at your starting place. If you have collected money this must be attached. Unpaid pledges will be billed by the Society for Crippled Children. You will be given a number for your machine and a checkpoint card. The card must be turned in at the end of your ride. Each snowmobiler MUST begin the ride with a full tank. Carry the usual spare parts - drivebelt and plugs - and dress warmly. We cannot predict next Sunday's weather so come prepared for anything from bitter cold to a raging blizzard. A protective face mask or belaclava is a must on the lakes. You may not need it but it won't prevent frostbite in your dresser drawer.

Advice for the trail. There are, along the route, a number of known hazards. These will be well marked, but in the case of blowing snow, the markers may not be readily discernible. When passing through a narrows, approaching a shore, or travelling near a stream, stay in line on the track and keep a safe distance from the rider ahead of you. Don't be a wanderer.

And, please, leave your jug at home this time.

Don't miss our next HCSA dance, Friday, Feb. 7 at the Haliburton Legion. Time - 8:30 pm - 1:00 am $5.00 a couple.

SPORTS

by Cliff Burke

BROOMBALL TOURNAMENTS UNDER WAY ACROSS ONTARIO

Broomball is perhaps the fastest growing sport in Ontario and Quebec at the present time. Minden is fast becoming one of the finer Broomball centers in Ontario, with a four team league and many estremely good players. The Alton Movers of the local league are as good a team as there is in this part of Ontario and after entering tournaments the past few years are now at the stage where they can break into the winners circle.

There are two tournaments this coming month that the Movers or an All-star team from this area should enter. The first takes place in Port Perry on February 8th as part of their Winter Carnival. The entry fee is $35.00 and there is $100 for first place $50 for second and $25 for third plus trophies. The largest tournament of the young tournament season takes place in Grafton on February 22nd with more than $300.00 at stake. There will also be individual trophies for the first and second place teams plus a MVP trophy and Top scorer trophy (goals only). The entry fee is high at fifty dollars but the prizes are also the highest ever in this area.

If there is a team or teams interested in these tournaments, kindly get in touch with the writer as soon as possible as the first twelve entries received in each tournament, get to play.

BARRIE CO-OP WINS WRIGLEY

The 1975 Wrigley Midget Hockey Champions are the Barrie Co-Op midgets. Barrie downed the defending Champion Verdun Maple Leafs 7-4 in the final on Sunday afternoon in Oshawa.

Shayne Pearsall led the Barrie attack with two goals and an assist, while singles went to Gord Gardiner, Don Martin, John Beaupre, Bob Colson and Jim Traceyiak. Verdun goalscorers were Kevin Reeves with two while Jim Mann and Gord Trembley had singles.

The scouts of the NHL and WHA must have been drooling at the talent that is coming up in Midget hockey across the continent. The game I watched on Sunday should produce eight or ten future Pros. Can't miss labels would have to be put on Verdun's, Kevin Reeves, Jim Mann and Gord Trembley. For Barrie there are at least four that can't miss, Gord Gardiner, Shayne Pearsall, John Tamblyn (6'5" - 187 lbs) and Bob Colson.

The Barrie Co-Op by winning now carry Canada's colors to the Soviet Union for six games against the tip Midgets in Russia. This team should do better than Verdun did last year when the Leafs managed only one victory. Barrie should win at least half the games and maybe surprise Canadians by winning more. They are an extremely talented bunch of youngsters, eleven of whom have played together since they where peewees. Congratulations Barrie on a job well done and Good Luck in the Soviet Union.

Kelly Beeney, Judy Trumbull, Lori Northey, Katie Leary & Douglas Cross

DANCE DEMONSTRATION
Douglas Cross - Jennifer Baker.

Monarchs game reports

BY DWIGHT THOMAS

MONARCHS DROP THREE

The Monarchs dropped 3 games on the weekend and are now 4 points out of the last playoff spot. Elmvale demolished Minden 12-3 Thursday night. It was the Monarchs first game in 10 days & they seem to have lost their competitive edge as a result. But Elmvale played well disciplined hockey with few passes not on the mark and on only rare occassions did they wander out of position. Their only weakness was in their own end when they became disorganized by deep forechecking. However, the Monarchs never pressed or hurried the play and were subsequently trounced before about 250 home fans.

Friday night in King City was to be a horse of a different colour. The Monarchs met Schomberg in what was considered a 4 point game and came up empty. They may have been able to beat the Kings but when they seemed to be threatening, the refs would hit Minden with assorted poor calls, offsides that didn't occur, penalties for offences that didn't happen etc. Sure, I know it sounds like sour grapes, and, perhaps, to some extent it is, but the officiating in this game was a travesty to call the referees Homers, would be an understatement and to call them incompetent would be a Compliment. The final score of this game was 6-1 with Minden's lone goal scored by Scott Larue on passes from McElwin and Sawyer.

Minden received 7 minors, 3 majors, 3 game misconducts and 3-2 game suspensions to John Parish, Scott Larue & Sherdon Kellett. Parish received an automatic 2 game suspension for drawing 2 major penalties in a game; Larue received a game misconduct & automatic 2 game suspension for arguing about a cheap, irresponsible penalty handed out to Kellett. The situation is this: Mike Jackson is taken into the boards with a heavy check and is held half-draped over the boards as the play carries on. Jackson tries to push his assailant away and some roughing occurs. Meanwhile, away from this altercation, Kellett squares off with another Schomberg player and a fight ensues. Now the penalties: Jackson is assessed a 2 minute high sticking & 5 minute fighting penalty. His combatant receives 5 minutes for fighting but no other penalty; Kellett receives a game misconduct as the third-man-in rule is applied. Irresponsible rubbish! Sour grapes it may be but damn poor, biased refereeing it was.

The Monarchs also dropped an 8-4 decision to Bracebridge Sunday night after holding a 3-2 lead after 2 periods.

The Monarchs have 4 scheduled games left. They must win 2 and tie 1, while Schomberg must lose their remaining games if Minden is to make the playoffs. This Thursday night in an absolute must game the Monarchs host Schomberg at 8:45 P.M. in Minden. Then the following night the Monarchs host Elmvale at 8:45 P.M. to headline the Minden Kinsmen Winter Carnival. The Monarchs travel to Penetang Wed. Feb. 5th for an 8:30 game. Penetang fell 8-4 to Elmvale Sunday night. The Monarchs final game is a home ice encounter against Fenelon Falls, Friday, Feb. 7th at 8:45 P.M. at the local arena.

Minor Hockey Reports

Midget A

Haliburton 8, 6 - Minden 1,1 Minden's two goals were scored by Barry Shaw and Craig Kennedy.

Mite A

Minden 5 - Bobcaygeon 0
Scoring for Minden were Mike Heath 2, Robbie McLeod, Scott Yake & Jeff Stamp. Congratulations go out to Scott Hamilton who recorded his first shutout of the year-one he was well worthy of. Minden registered this victory without the services of high scoring Kevin Warburton who has, apparently, retired from hockey.

Bantam B

Minden 4 - Wilberforce 8
Minden's scoring plays: 1. Ted Pilcher from Kim Hamilton
2. Brian Hogg
3. Ted Pilcher from Kim Hamilton
4. Ted Pilcher

Mite B

Minden 8 - Bobcaygeon 4
Scoring for Minden - Mike Gorveat 2, Brad Chambers 4, Tome Prentice, Steve Fountain.

TODAY'S HEALTH

Catching the tartar before it forms on teeth

by David Woods

Plaque and Floss may sound like a couple of old-style vaudeville comedians. But they're really no laughing matter: plaque is a widespread dental problem — and floss is the only serious way of coming to grips with it.

Plaque is soft, sticky stuff that clings to the teeth; it's caused by an interaction of food, saliva and bacteria. If it isn't removed, it hardens into something called tartar, which accumulates in much the same way as barnacles do on the bottom of a boat, and has to be taken off in the same fashion — by scraping.

That's what your dentist does on your regular checkup visit, but you can help your dentist — and yourself — by seeing to it that plaque doesn't build up in the first place.

Which is where dental floss comes in.

You can get rid of most plaque by proper brushing. But not all of it. Dental floss is a length of thread, sometimes waxed, and sold in a small plastic dispenser for easy use and storage. You simply break off about a foot of floss at a time and, using both hands, slide it between the teeth with a back-and-forth motion. This should be done gently to avoid injuring the gums.

Doing this daily will help to clear away the debris that forms plaque — and eventually, tartar. For the few cents and minutes involved, it's an excellent investment in good dental health.

In fact, the rules for preventing tooth decay are few and simple. Use a toothbrush with firm but flexible bristles capable of reaching *all* tooth surfaces.

Brush down on the outside of all the top teeth, starting on the gums, pausing to wiggle the brush vigorously where the teeth meet the gums, then brush on the inside of the top teeth, and next across on the chewing surface of the upper back teeth. Then follow exactly the same procedure with the lower teeth, except now you brush upward.

Brush after each meal if possible (if you can't, rinse well with water), and certainly brush before going to bed at night. Use floss daily and visit your dentist twice a year for preventive care — and watch what you eat.

Diet plays an important part in dental care. And the so-called "sweet tooth" can be a liability. Sugar in your mouth breaks down into acids that attack tooth enamel within minutes, so between-meal snacks — especially candies, cakes and cookies — should be avoided in the interest of good dental health.

While plaque may not be funny, attacking it before it takes root will give you something to smile about — and something to smile *with*.

NOTICE

In the matter of the Municipal Act and in the matter of a proposed by-law of the Corporation of the Townships of Anson, Hindon and Minden for selling part of the original allowance for road between Lots 10 and 11, Concession 10 in the Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to Section 446 of the Municipal Act R.S.O. 1970, that the Municipal Council of the Corporation of the Townships of Anson, Hindon and Minden proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Minden Municipal Council Chambers, Minden, Ontario on Monday the 10th day of February, 1975, a by-law to sell the following:

Being part of the Road Allowance between lots 10 and 11, in the Tenth Concession in the Township of Minden and being more particularly described as follows:

COMMENCING in the South east angle of the said lot 10 in the Tenth Concession;

THENCE North 20 degrees 53 minutes 50 seconds a distance of 203.81 feet;

THENCE North 72 degrees 32 minutes East 66.12 feet;

THENCE South 20 degrees 53 minutes 50 seconds East a distance of 208.61 feet;

THENCE South 68 degrees 22 minutes 30 seconds West a distance of 66.0 feet to the point of commencement.

AND BEING that portion outlined in green on a Plan of Survey signed by J.B. Trepanier O.L.S. dated October 10th, 1969.

And further take notice that before passing the said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or agent, any person who claims that his land will be affected by the said By-law and who applies to be heard.

Dated at Minden this 9th day of January, 1975.

Richard Parisotto, A.M.C.T.
Clerk-Administrator
